## About NHS Professionals

NHS Professionals (NHSP) run the country's largest NHS flexible staff bank. Since 2001, we've placed thousands of clinical and non-clinical professionals into NHS Trusts and other healthcare settings, supporting patient care.

Uniquely owned by the Department of Health and Social Care, we work closely with the NHS, at Trust and system level, and reinvest our annual surplus back into the wider healthcare economy.

## Putting people in places to care

From nurses, midwives, doctors, AHPs and healthcare scientists, through to non-clinical roles including estates and facilities, catering staff, administration and IT, our dedicated bank of flexible workers have delivered over 43 million hours of care. NHSP also provide award-winning international recruitment services to NHS Trusts, alongside permanent staffing solutions to support workforce capacity.

Ranging from urgent short term shift fill requirements, through to longer term placements and opportunities, our bank of dedicated professionals support the NHS at every level.

Their skills, experience, passion and diversity, combined with assured standards and a commitment to continuous learning, make our Bank Members the best-value choice for Trusts with temporary staffing needs.

## Managed Service experts

As a leading managed service provider, we help Trusts to generate lower costs, increase capacity and create greater freedom to focus on people-centred care.

Our managed service solution is used by more than 50 Trusts, and is also available to Trusts with their own Bank, we provide a complete end-to-end temporary staffing service. Recruitment, HR, payroll, training, marketing, performance and data reporting – we handle the details, while the Trust retains oversight.

### Key benefits include:

- The fully managed flexible supply of high-calibre healthcare professionals
- On-site team
- Reductions in external agency and non-pay spend
- 24/7 National Service Centre
- Innovative Bankshare® scheme allowing Trusts to share their own substantive staff between Banks across a region or collaborative
- Simple roster-integrated shift booking system, requiring no new investment.

## Staffing the system

We are passionate about the NHS: its people, its patients and its future. Many of our own staff come from an NHS background, including senior clinical roles; the NHS and its values run through our DNA. Our national scale and subject matter expertise make us a crucial workforce provider to the NHS.

Our extensive experience and leading position in the healthcare recruitment market means that we are able to staff the whole system. From working with hospitals and Trusts to provide front line staffing support, to collaborating with ICBs

and system-level organisations on strategic workforce initiatives.

Talk to one our team today about how our flexible workforce solutions can transform the way you deliver patient care.
